Career Transition

What would your advice be for someone thinking of making a change?

Sustainability Values

- **Why does sustainability attract job seekers?**
- **As an employer how would they communicate their sustainability to job seekers?**

Generations working in the same workplace

- Can this create a happy environment or lead to problems?
 - How can employers & employees deal with this?

Perks

Does this add to people feeling valued?

Work/Life Balance

- Should we have the opportunity to work at flexible times?
 - Is working from home the norm?
- Should your boss trust you to produce high quality work and results without being in the office.

Thank you for listening!
